

Subject: Notification of Price Adjustment

主题：派克产品价格变动通知

Dear Valued Customer,
尊敬的客户：

Over the past year, rising global raw material prices and inflation have continued to put pressure on our production costs. In addition, recent instability in the Middle East has led to increased volatility in commodity markets, particularly impacting petroleum-based product prices and international freight costs. In response to these cost pressures, we will implement following price adjustments, effective from July 1, 2026. This price adjustment includes the following two parts:

受过去一年全球基础原材料价格上涨及通货膨胀影响，我司产品的生产成本持续承压。叠加近期中东地区动荡局势导致大宗商品市场剧烈波动，尤其对石油副产品价格及国际运输成本产生了明显冲击。为应对上述成本压力，我司决定自 2026 年 7 月 1 日起对所售产品进行价格调整。此次调整包括以下两个部分：

1. Annual Sales Price Adjustment:

To address the cumulative cost impact of long-term inflation, we will implement a routine annual adjustment to our list prices. This adjustment is based on the latest cost calculations and reflects the long-term value changes in our products.

- From July 1, 2026, our sales prices will be adjusted in accordance with the attached "FY27 Price Adjustment Percentages by Product Line".
- The new prices will apply to all new contracts/orders effective July 1, 2026. To minimize the impact on existing orders, we will provide a **two-month transaction period**: for contracts/orders placed on or before June 30, 2026, and picked up by August 31, 2026, current prices will remain in effect. For contracts/orders picked up on or after September 1, 2026, will be subject to the new prices.

1. 年度销售价格调整：

为应对长期通胀带来的累计成本影响，我们将对价目表价格进行例行年度调整。此次调整基于最新成本测算结果，反映了产品长期价值的变化。

- 自 2026 年 7 月 1 日起，我司将根据附件中的《产品线调价幅度表》对所售产品的价格进行调整；
- 新价格自 2026 年 7 月 1 日开始对新合同及新订单生效。同时，为减少对已生效的合同/订单的影响，**我司为客户提供两个月的过渡期**：凡在 2026 年 7 月 1 日之前已生效的合同/订单，且于 2026 年 8 月 31 日及以前完成提货的，仍按原价格执行；对于 2026 年 9 月 1 日及以后提货的合同和订单，将按照新价格执行。

2. Surcharge

- Since the outbreak of the conflict in the Middle East, international oil prices have risen significantly, resulting in a continued increase in the air freight costs of our imported products. To support our long-term partnerships with customers, we have previously absorbed these additional costs. However, in view of the short-term fluctuations in commodity prices, petroleum by-product prices, and transportation costs caused by the ongoing conflict, and based on the actual trend of cost increases, we have decided to introduce a temporary surcharge in addition to the current sales prices. This surcharge will be reviewed on a quarterly basis and adjusted dynamically in accordance with market conditions. After careful evaluation, we have decided that, effective July 1, 2026, a 2% air freight surcharge, calculated based on cargo value, will be applied to air-shipped products imported from the United States, Mexico, and Europe.
- After careful evaluation, we have decided that, effective July 1, 2026, a 2% air freight surcharge, calculated based on cargo value, will be applied to air-shipped products imported from the United States, Mexico, and Europe, for deliveries made on or after July 1, 2026.

2. 附加费:

- 自中东战事以来,随着国际油价上涨,我司进口产品的空运成本持续走高。此前本着维护与客户的长期合作,我司一直在承担和吸收这部分的成本。为应对中东战事冲突引发的大宗商品、石油副产品及运输价格的短期波动,我司将根据实际成本变化趋势,在现有销售价格基础上增设临时附加费。该附加费将按季度评估,并动态进行调整。
- 经慎重评估,我司决定自 2026 年 7 月 1 日起,对 2026 年 7 月 1 日及以后提货的由美国、墨西哥及欧洲进口的空运产品,根据货值金额加征 2%的空运附加费。
